Written materials (attached to the notice) were used during the meeting with Cmmr. Brown. Grivner described XO's interest in the price of unbundled DS9 and DS1 loops as a 'UNE-L' competitor. XO representatives stated that, if the Commission follows the 'split the difference' approach recommended in the proposed decision (PD) and the alternate proposed decision (APD), it should be careful to make all of the corrections to the 'runs' of the competing models that are recommended in XO's comments. XO also stated that the Commission should eliminate 'double counting' of expenses, correct the cost of capital factor, and reject the APD so that SBC California will have a strong incentive to improve its productivity. Finally, XO stressed the need for the Commission to consider the benefits of competition and stable policies for investment, job development and consumer benefits.

Summary: On July 1, 2004, Catherine Boone, Vice President for Governmental & External Affairs of Covad Communications Company (Covad), met with Lester Wong, advisor to Pres. Peevey, Cmmr. Wood, and Cmmr. Lynch in three separate meetings in San Francisco. At the meeting with Cmmr. Wood also present was Jonathan Lakritz, advisor to Cmmr. Wood, and with Cmmr. Lynch – Tom Long, advisor to Cmmr. Lynch. Boone discussed the impact of a loop rate increase on facilities-based competitors. Boone also discussed the fact that copper costs are decreasing, electronics costs are decreasing, and SBC's engineering and construction contracts require yearly gains in efficiency and decreases in costs. Boone stated that, as a result, SBC's costs are decreasing at the same time that SBC seeks a dramatic rate increase from its wholesale customers. Boone explained how competitors like Covad depend upon reasonably priced access to UNE loops. Boone stated that if the Commission wants to promote competition in these market segments, loop rates cannot be increased by this dramatic percentage.

O'Neill stated that the 1B Hybrid route that both the PD and AD would adopt could easily be modified to address the remaining impacts on residents by adoption of the West of Skyline Boulevard Compromise modification to the 1B Hybrid. O'Neill stated noted that throughout this proceeding, 280 Citizens has sought solutions to meet the reliability needs of San Francisco and the desire of Hunters Point residents to shut down the Hunters Point Power Plant without adversely affecting residential neighborhood or the environment of the Peninsula. Carlin also explained the basis for 280 Citizens' concerns regarding health and safety risks associated with exposure to EMFs from high voltage transmission lines.
